

RAIN CITY GRAPHICS RATE CARD

Specializing in print design, Rain City Graphics can provide you with a professional, creative design that outshines the competition

Logo Design: \$400 - \$5,000

Whether you're looking to create the hallmark for your organization or a one-time logo for an event; we have the experience to get you exactly what is needed. We will work quickly to assess your needs, articulate our understanding and explain next steps (including our pricing structure). Timeless designs such as the Nike® Swoosh and the Microsoft® logo require a deeper Discovery Phase and often completely original artwork with some element of freehand design. However, we've also completed logos for event promotion and sponsorships; in which case the mutual investment of time (and pricing) is much lower.

Business Card Design: \$275 - \$1,400

First impressions are everything; nothing bothers us more than seeing someone design a business card full of clip art and printed on an ink jet printer. We'll work with you to select the correct design, color palette and materials. All of our designs are print-ready.

Letterhead: \$250

Let your company's letterhead reflect the professionalism of your organization and the message you're trying to convey. Often, people choose to redo letterhead with the completion of new business cards.

Marketing Materials: \$500 - \$1,500

We have the experience to produce Postcards, Brochures, Annual Reports and Point of Sale (POS) Materials. Pricing for these materials typically ranges based on size and time investment.

All work is completed on a Fixed Price Model; we will provide an estimate after discussing your project with you. However, sometimes there is the need to fix a design or artwork, in which case we are comfortable working on a Time and Materials basis (per hour). Feel free to call us at (425) 214-2064 for a personalized quote.

*Prices reflected are as of 7/7/2008 and subject to change.
